HOW IT ALL BEGAN

MDP Coffee House brings you the aromatic blend and deliciousness of supreme coffee at its best. Operational since 2005, however, our fully functional journey began its journey in the year 2005 in a very humble way as a fledgeling organisation in a small kiosk at one of the IT giants 'Accenture'. From the small kiosk, we have successfully scaled up and established a huge corporate presence cutting across various sections throughout India. This has been feasible only because of the dedication and devotion exhibited by our trained professionals.

Our foundation is based on the principle of “Commitment to Service, Consistency in Quality and Value for Money”.

MDP Coffee House has built a grand reputation over the years serving over 1 Lakh cups of coffee every day. Standing Tall Since 2005, we have brought the joy of amazing coffee pan India at corporates and enthralled customers through commercial outlets too!

“An organisation’s growth and productivity is directly related to the team members it possesses”

Our core team members share every idea and seize every opportunity that helps us achieve the heights, irrespective of the position a member holds, collectively the team dedicates themselves to their work wholeheartedly. Standing to the expectations and contributing meaningfully has been the motto of our team.

We also have timely recognised the contribution of every member and it has elevated their sense of loyalty and belonging to the company. This` has resulted in building a work environment that is positive, motivating and engaging.

By recognizing ourselves in light of our history, we become aware of what we are.
